

# Nationwide

01 March 2021

## **Establishing the next-generation infrastructure organization to support hybrid cloud**

[Guru Vasudeva](#), Nationwide's senior vice president and chief technology officer for infrastructure and operations, joined a McKinsey webinar to share the benefits and challenges of Nationwide's journey to the cloud. He was joined by Matt Mester, senior vice president of technology risk and reliability at ADP and Dave Gledhill, former CIO at DBS Bank who also shared their transformational journeys. View the webinar [here](#).
